

SNOWSOUND®
Acoustic Panels & Fibers

PRINT.

PRINT. Restaurant, New York, NY.

"The panels really look great and have been effective at mitigating our sound issue at Print. We get unsolicited compliments from guests about the Flap panels on a daily basis."

I am considering buying the same panels for the Press Lounge (our venue on the 16th floor)."

- Adam Block, Owner PRINT. Restaurant

Product installation:

Snowsound Flap panels were used with 3" mounting arm. The color white was used in Main Dining Room. Installation was completed in 2017.
