Special School District Early Learning Center

Project Name: Special School District Early Learning Center
Location: Hazelwood, MO
A&D Firm: O'Toole Design Associates
Application: Education
Product: Flap Wings

PROJECT INFORMATION

For Special School District of St Louis County's new Learning Center, the Early Childhood group needed an area to bring kids in for testing & observation, with a space large enough for play. This area was created to meet that need in conjunction with the rest of the building's styling, while also creating a colorful, whimsical atmosphere for the children. The building overall has a neutral palette with pops of subtle blues, greens, golds & oranges. The Snowsound acoustical "birds" hanging from the ceiling add some flair & pops of color, while helping to keep the noise down during larger group play or transition periods between groups. Overall, this area created a fun, inviting space for children, while also allowing the EC group to successfully accomplish their work!

PM: Meredith Carmier | Senior Interior Designer
