

**SNOWSOUND®**  
Acoustic Technology & Design

## + THE SPLASH LAB

The Splash Lab (Culver City, CA)

*"The inclusion of Snowsound's curtains in our LA showroom was a great choice. Not only do they look beautiful aesthetically and provide us with great versatility in how we use the space but ultimately their sound-absorbing performance is significant, providing us with a relaxing place to work with no echo even when the showroom is well populated."*

~ Justin Lovell | Commercial Director | The Splash Lab

Project Name: The Splash Lab  
Location: Los Angeles, CA  
Application: Showroom  
Product: Fiber 3 Melange 304

### PRODUCT INFORMATION

Snowsound Fiber Acoustic Textiles specified for curtain partition. Curtain partitions gives an elegant soft look to a design space. Snowsound Fiber Acoustic Textiles offers a functional contemporary design solution for acoustic comfort in private and collaboration spaces. Our Fiber Textiles is an innovative acoustic fabric with patented technology solution that reduces echo and reverberation and creates a space for concentration and privacy. The Fiber technology absorbs sound that reflects off hard surfaces, eliminating unwanted reverberation, reducing echo, and softening the sound for a comfortable acoustic environment.
