

SNOWSOUND®

Acoustic Technology & Design

/ PARTNERS + NAPIER

Project Name: Partners + Napier
Location: Rochester, NY
A&D Firm: Bergmann Associates
Application: Office
Product: Oversize Ceiling Suspended

PROJECT INFORMATION

Partners + Napier, an award-winning marketing and advertising agency, partnered with Bergmann and The Pike Company for a highly accelerated design build interior fit-out during their office relocation. The highly anticipated office relocation is a true expression of their brand and values; energized, gutsy, collaborative, and comfortable. Derived for a largely experimental layout, the new office is designed to draw the client through the open floor plan, experiencing how the staff created and concepts their work and ideas. Both clients and employees share the comforts of the space together with various lounge areas and a café bar area. The client area boasts a client lounge, signature client conference room, energetic brainstorm areas and a virtual reality lounge. With the high ceilings and hard surfaces, the Snowsound Oversize Ceiling panels not only reduces the echo and reverberation in the areas but adds a very clean minimalist look.
