

**SNOWSOUND®**  
Acoustic Panels & Fibers

**theTradeDesk®**

The Trade Desk, Ventura, CA

*"It was an improvement to an already existing space. Requested by the end user for help with noise, and Snowsound was so helpful to offer a quick loaner solution. Snowsound was then viewed as a true partner. Sound was unbearable during global conference calls. The install was a simple one-day install and fixed the solution long term. The customer is pleased and very happy. They look at Snowsound in future conference rooms now as a standard."*

- Amber Jones, Vice President, Sales & Education  
Tangram Interiors

Project Name: The Trade Desk

Location: Ventura, CA

Vertical Market: Technology Company

Applications: Conference Room

Product: Mitesco 24"x 63" panels (white) with Ceiling Hardware, and Flap standard panels (silver gray and beige) with wall mounting hardware.

Dealer: Tangram Interiors

### Product installation:

The customer had a conference room that was used for Global calls. Glass walls and cement floor and the sound was awful for these calls. They asked for help for a call they had scheduled in 3 days, and Snowsound was able to get us freestanding panels to absorb sound for that initial call. As soon as the call was over, they placed the order for their permanent Snowsound solution.
