DUNES

Dunes is a wall-applied acoustic solution consisting of two layers of Snowsound Fiber Boucle Textiles: one of which serves as a flat base backing and the other as a three-dimensional sound-absorbing pocket created with repeating pleats held by steel clips. Think of Dunes as a three-dimensional tapestry, with amazing acoustic performance that comes from the topographies between the backing fabric and the air pockets in the hollow reliefs of the upper layer of Snowsound Fiber. Dunes blends poetry and function to offer a seductive aesthetic with the unsurpassed acoustic performance Snowsound is known for.

- Single material and 100% recyclable
- Eco friendly - Greenguard Gold
- Class A sound absorption with (ISO 354)
- Easy to clean and sanitize. Meets CDC Guidelines.

- Class A fire and smoke safety (UL 723/ASTM E84)
