

SNOWSOUND ART

The journey began in 2017 with a collection of Snowsound sound absorbing panels that have become "canvases" on which are reproduced a series of drawings by Gillo Dorfles, painter, art critic, theorist, historian, considered one of the greatest art scholars in the world. It continued in 2018 with works by Gio Ponti, one of the masters of Italian and international design and architecture, and in 2019 with Sezgin Aksu, designer and artist. For this dual value, Asku was involved in the Snowsound Art project, for which he created a series of works to be reproduced on the panels of the Giotto Collection he designed. 2020 Alessandro Mendini Ideas, Things artwork serves as an example of how a dialogue between art and industry is necessary and should be the basis for any mass-produced product.
