SNOWPOUF
ACOUSTIC SOFAS & COFFEE TABLE

SNOWPOUF

DESIGNER

Paola Navone - Otto Studio

A comfortable sound-absorbing object covered with Snowsound-Fiber 3 Melange fabric and, internally, consisting of technopolymer sound-absorbing padding and wood.

SNOWPOUF ACOUSTIC COFFEE TABLES

Coffee tables are crafted with a load-bearing structure made of wood, covered with sound-absorbing polyurethane and polyester. This, combined with the Snowsound Fiber sound-absorbing fabric upholstery, allows the elements to effectively absorb different frequencies.

Each element is equipped with 4 technopolymer feet. The solid table tops are made of MDF with wrapped oak-veneered wood. The table tops are fixed to the structure using steel plates.
