

SNOWSOUND ART

The journey of SNOWSOUND ART began in 2017 with a collection of sound-absorbing panels that serve as 'canvases' featuring a series of drawings by Gillo Dorfles, a renowned painter, art critic, and theorist widely regarded as one of the greatest art scholars. The project continued in 2018 with works by Gio Ponti, a master of Italian and international design and architecture, and in 2019 with Sezgin Aksu, a designer and artist. Aksu was involved in the SNOWSOUND ART project, creating a series of works reproduced on the panels of the Giotto Collection, which he designed. In 2020, Alessandro Mendini's Ideas, Things artwork exemplified the necessity of dialogue between art and industry, serving as a foundation for any mass-produced product.
