

DUNES

DUNES is a wall-applied acoustic solution composed of two layers of Snowsound Fiber Boucle Textiles. One layer serves as a flat base backing, while the other creates a three-dimensional sound-absorbing pocket formed by repeating pleats held in place by steel clips. Imagine Dunes as a three-dimensional tapestry, where the topographies between the backing fabric and the air pockets in the hollow reliefs of the upper layer of Snowsound Fiber contribute to its exceptional acoustic performance. Dunes combines poetry and function to offer a captivating aesthetic with the unparalleled acoustic performance for which Snowsound is renowned.

Specs	Single material and 100% recyclable
	Eco friendly – Greenguard Gold
	Class A sound absorption with (ISO 354)
	Easy to clean and sanitize. Meets CDC Guidelines.
	Class A fire and smoke safety (UL 723/ASTM E84)
	CAL 133, 117 pass
	Wall mounted
Design	Felicia Arvid

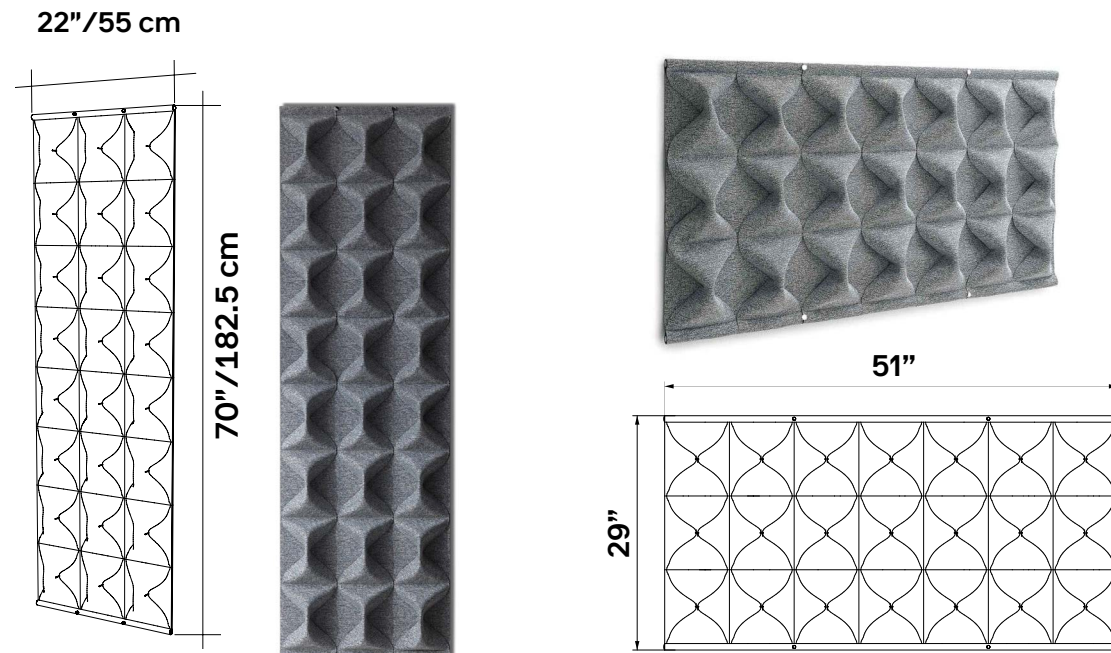

DUNES HORIZONTAL PANELS COMPLETE KIT

Call your representative for stock levels and availability

Kit includes

01 Fiber 8 Bouclè fabric

Mounting hardware

	Color	Part No	Part No
	801 Gray Ice	40045016**	7KL30-801**

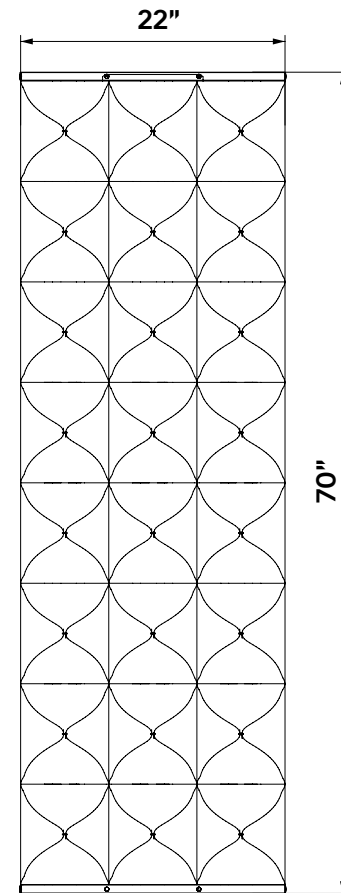

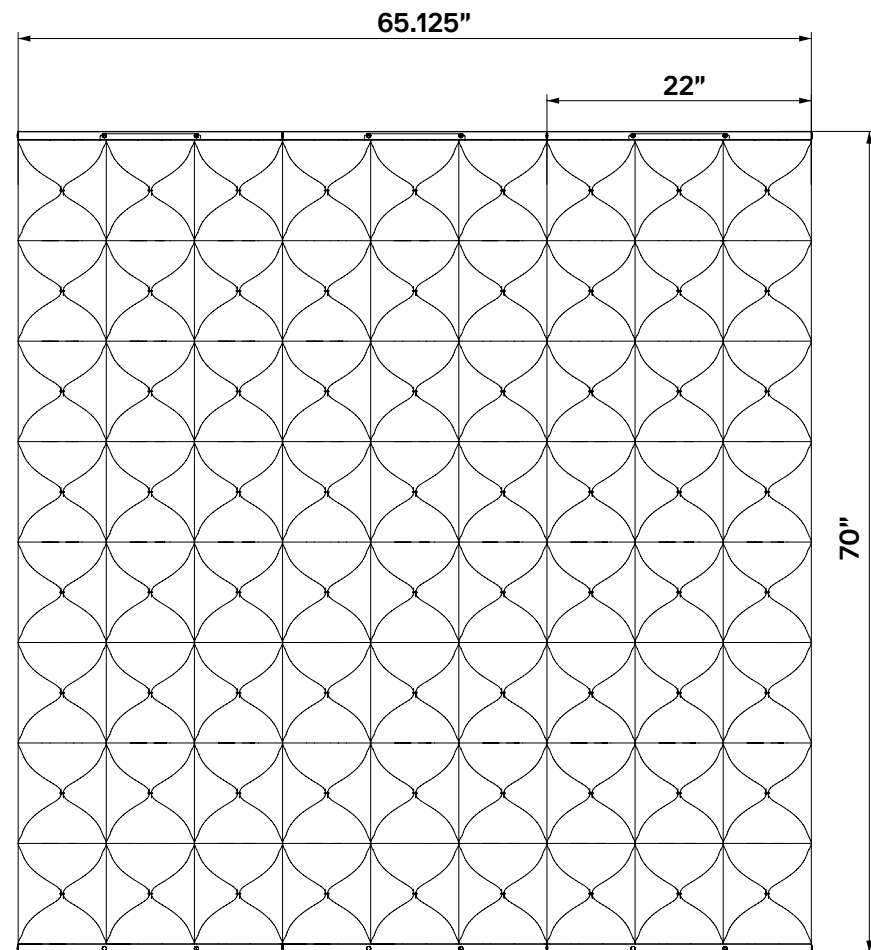

** Extended lead time

Extended lead time colors require: up to 10–12 weeks

For larger swatches & full color options, please refer to pages 277–280.
