NAPWORK

**“Hexagonal and linear modules with an informal image compose a modular system of acoustic upholstered seating, potentially never ending. Whether in its single version for small rooms or as multiple pieces for large common areas, from the small lounge to large environments, the system combines acoustic well-being and the pleasure of a comfortable seat.”**

Paola Navone – Otto Studio,  
Designer

# NAPWORK

A modular system of upholstered sound-absorbing seats with a supporting structure made of wood and elastic straps sized to independently absorb low frequencies. The seats are covered with soundabsorbing polyurethane and polyester, combined with upholstery in sound-absorbing Snowsound Fiber fabric made of polyester fibers. This combination allows the seat to effectively absorb different frequencies in the best possible way. The outer upholstery cover is removable.

# A+E TECHNOLOGY

## ELECTROMAGNETIC REDUCTION

Snowsound metallized high-tech polymer fabric, infused with pure silver, serves a specific purpose: to reduce the power of electromagnetic fields while still allowing the use of smartphones and Wi-Fi networks. Unlike some materials that completely block signals, this fabric offers a balanced approach, ensuring functionality while minimizing electromagnetic exposure. By integrating this radio frequency-reducing fabric into sofas and other sound-absorbing elements, it combines the benefits of sound absorption with the reduction of electromagnetic fields. This patented technology represents a significant advancement in promoting the well-being of individuals by addressing concerns related to electromagnetic exposure.

Standard	Frequency MHz (Start-Stop)	Residual Signal Power
GSM / 850	825-895	0.85%
GSM / 900	870-960	3.34%
UMTS	1920-2170	0.56%
LTE	2510-2690	0.30%
WIFI	2400-2500	0.60%
5G	3400-3800	0.79%
WIFI	5100-5800	0.75%

PHYSICAL PROPERTIES

Content	100% Inherently Fire Resistant, Acoustic Sound Absorbing Polyester Fibers with Patented Snowsound Technology
---------	--

ACOUSTIC PERFORMANCE & NOISE REDUCTION RATING

Absorption Coefficient & NRC	Please refer to the online Technical Sheets for acoustical testing details
------------------------------	--

PERFORMANCE

Flame Resistance	Passes NFPA 701 // NFPA 260 // CAL. TB 117 // UL 723 Class A // ASTM E 84 Class A
Environment	100% Recyclable and GREENGUARD GOLD Certified
	LEED v4 Credits and Certification, Declare Label, LBC Red List Free
Colorfastness to Light	Grade 7 – “Outstanding” (Passes AATCC 16 / ISO 105–B02:2014)
Propensity to Surface Fuzzing & Pilling	Grade 5 – “no change” (Passes ISO 12945–2:2002)

FABRIC FINISH: FIBER 8 BOUCLÈ

Dove Coffee 800

Gray Ice 802
