

SNOWALL MAX

SNOWALL MAX

Snowall Max is a flexible sound-absorbing acoustic wall-covering in the form of panels. Delivered as rolled goods, the material can be direct-glue applied to walls. Snowall Max is made of 100% polyester felt paired with Snowsound Fiber patented acoustic textiles as the top cover, using a unique application system. Available in Snowsound Fiber 3 Melange fabric, the panels can be glued to the wall side by side, maintaining the continuity of the design and can be cut on site to adapt to different installation needs.
