# SNOWSOUND-UP LAMPS

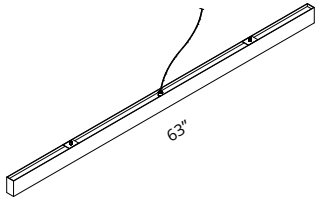

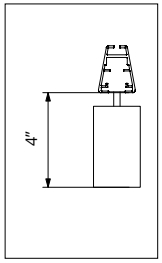

**40 WATT**
**3000 KELVIN**

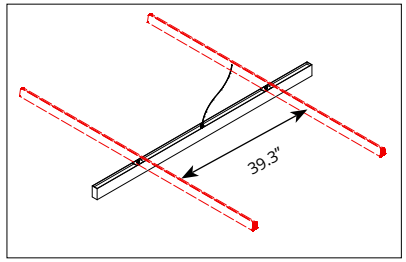

**7KLED120-N**

Black

LED light, 47” long, with integrated transformer. Can be installed on profiles 7K120P/2-XX or 7K180P/2-XX.

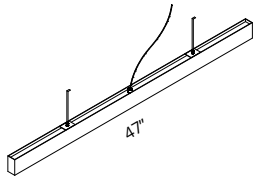

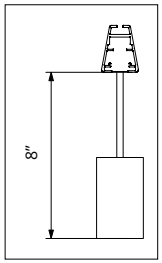

**54 WATT**
**3000 KELVIN**

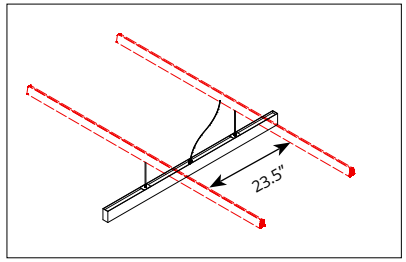

**7KLED160-N**

Black

LED light, 63” long, with integrated transformer. Can be installed on profiles 7K120P/2-XX or 7K180P/2-XX.

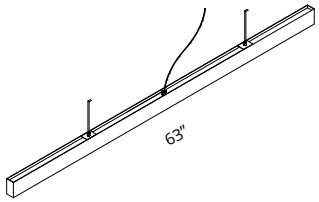

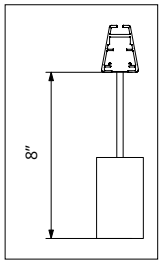

**40 WATT**
**3000 KELVIN**

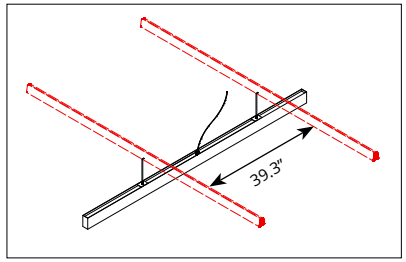

**7KLED120P-N**

Black

LED light, 47” long, with integrated transformer. Can be installed on profiles 7K120P/2-XX or 7K180P/2-XX.

**54 WATT**
**3000 KELVIN**

**7KLED160P-N**

Black

LED light, 63” long, with integrated transformer. Can be installed on profiles 7K120P/2-XX or 7K180P/2-XX.

**LED LIGHT**
**CABLE STRUCTURES**
- Maximum 1 lamp per structure with 2 tracks L. 120 or 180 cm suspended from the ceiling with cables
- 2 to 3 lamps: add 2 7KAC/4-NI attachments to the above structure (Please note: the package contains 4 attachments)

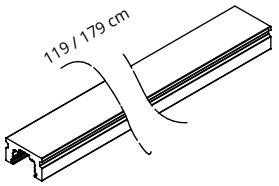

**STRUCTURES WITH DIRECT CEILING MOUNTING**
- Max. 2 lamps per structure with 2 tracks L. 120 or 180 cm with direct ceiling mounting
- 3 lamps: add 2 7KAD/4-NI mounts to the above structure (Please note: the package contains 4 mounts)

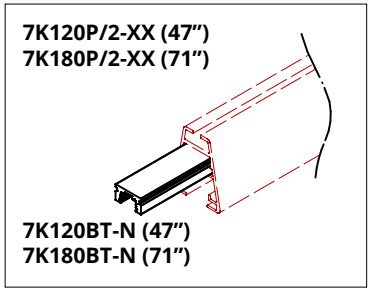

When these lamps are present, it is not possible to hang other lamps or tracks from the structure.

# SNOWSOUND-UP TRACK 48V

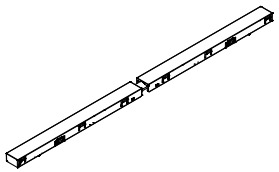

**7K120BT-N L. 47"**

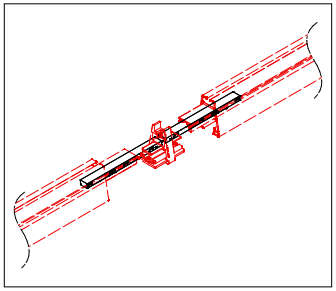

Black

**7K180BT-N L. 71"**

Black

Rail for electrification, length 47" or L. 71". Can be inserted into profiles 7K120P/2-XX (47") or 7K180P/2-XX (71").

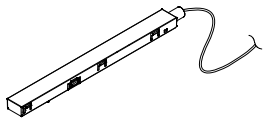

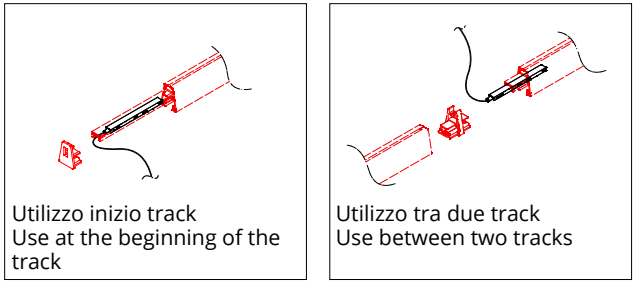

**7KGBT-N**

Black

Flexible linear joint for connecting two electrification tracks, 7K120BT-N or 7K180BT-N.

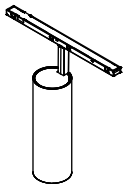

**7KALI-N**

Black

Power supply with 2.5 m cable. It can be positioned at the beginning of the tracks to be electrified, or centrally between two tracks.

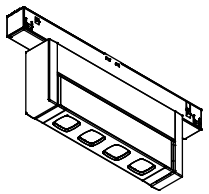

**9,1 WATT**
**3000 KELVIN**

**7KFC-N**

Black

Cylindrical spotlight. 9.1 WATTS

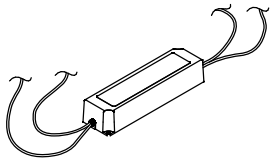

**8,8 WATT**
**3000 KELVIN**

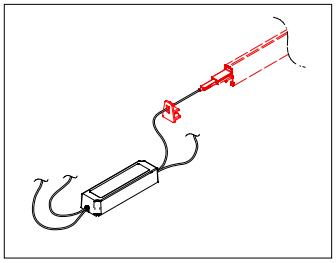

**7KMLD-N**

Black

Adjustable multi-LED spotlight. 8.8 WATT

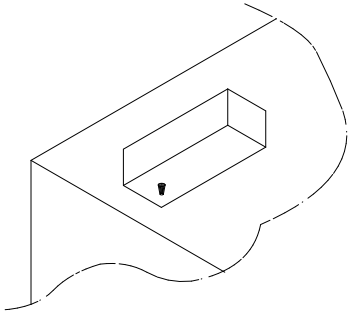

**7KDRI-N**

Black

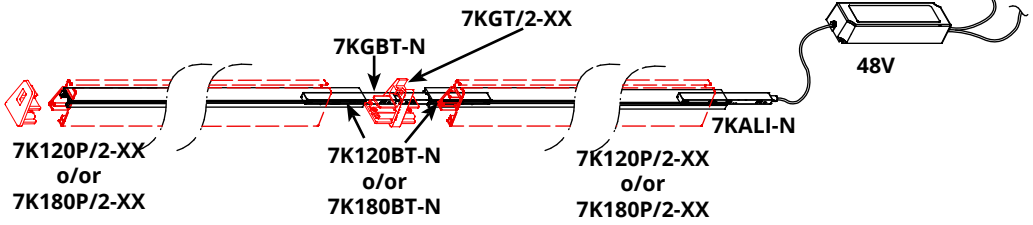

Power supply. Max 100 watts.
For a maximum total track length of 10 meters.

**7KCAR-N**

Black

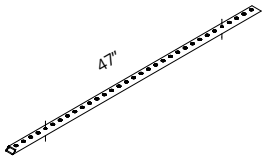

Optional cover for 7KDRI-N power supply unit

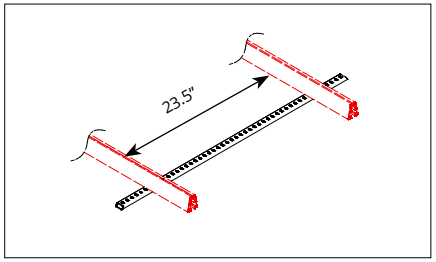

48V power supply for tracks with a maximum length of 32’-9”.
Supports max 100 Watts

# SNOWSOUND-UP ADAPTERS

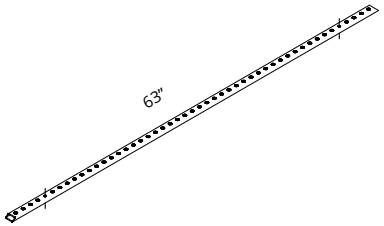

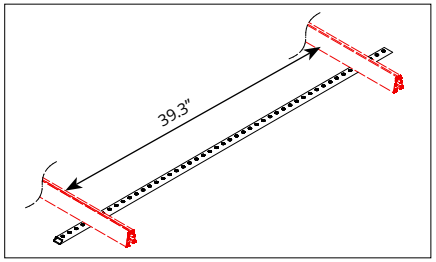

**7KAD120-N**

Black

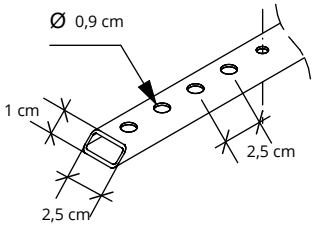

Adapter for anchoring linear lamps to Snowsound-up structures, complete with two 7KADDIS-N insulating discs. To be used with commercially available lighting fixtures not included in this price list.

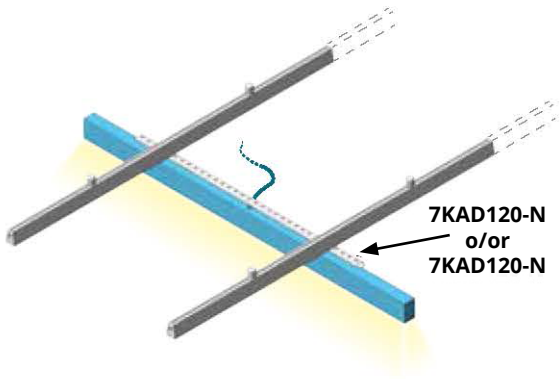

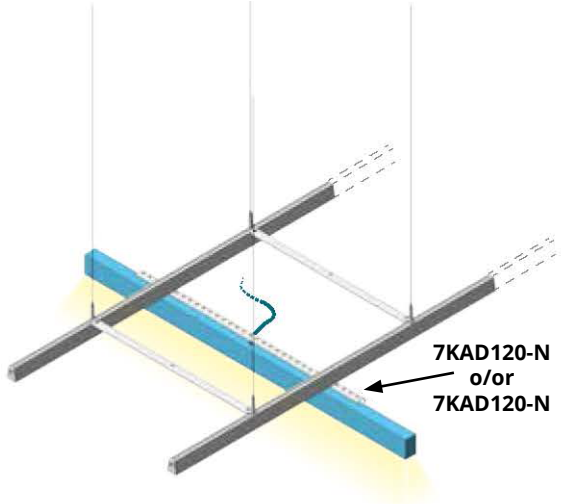

**7KAD160-N**

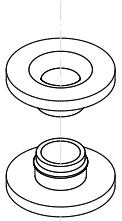

Black

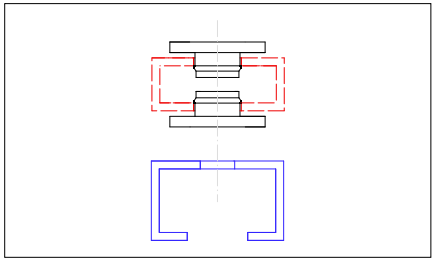

Detail of adapters 7KAD120-N and 7KAD160-N

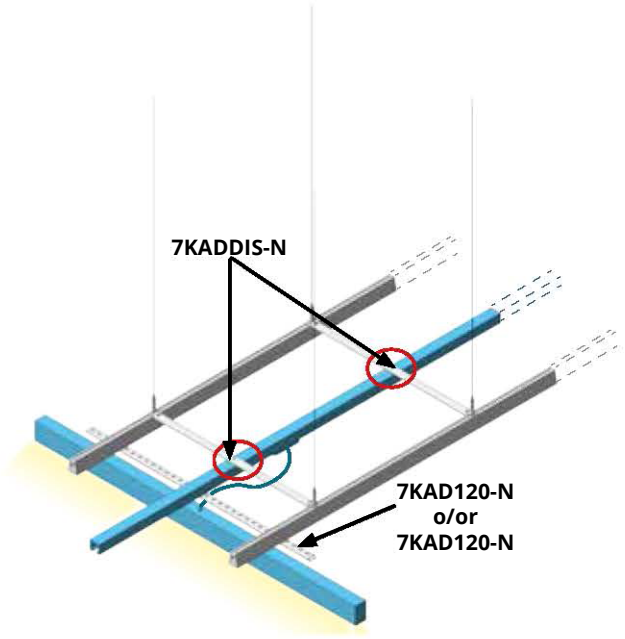

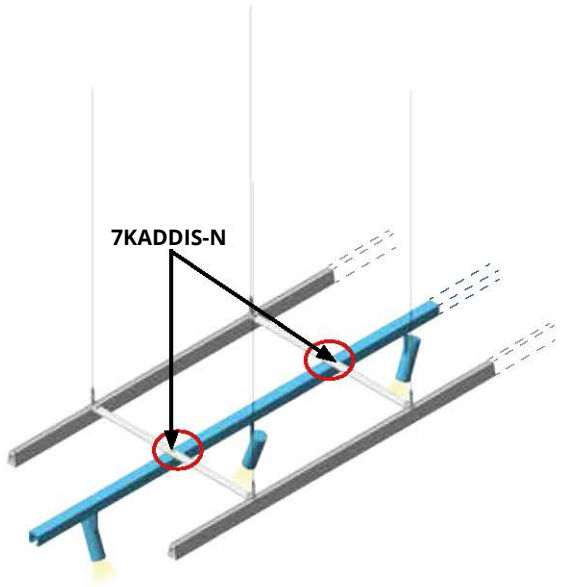

**7KADDIS-N**

Black

Plastic insulating adapter for anchoring commercially available tracks to Snowsound-up structures. MANDATORY for lamps with fixings that could compromise the electromagnetic compatibility of the structure.

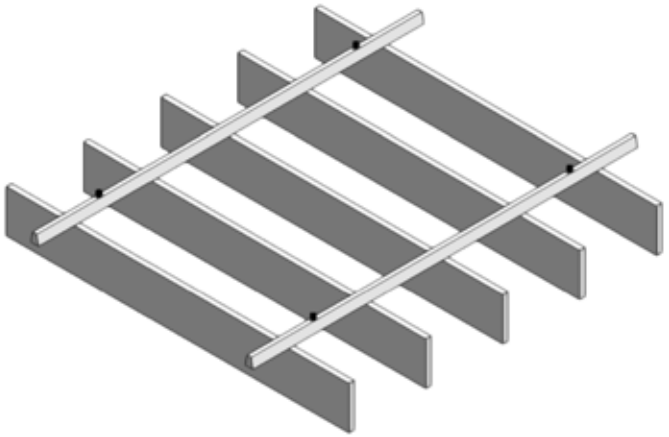

The items shown in blue identify commercially available tracks and lamps not included in this price list.
For information on the load capacity of the structures, please contact our sales department.
